## The Imprecator.

TAYLOR & TAYLOR, EDITORS AND PROPRIETORS.

Saturday, Feb. 18, 1905.

OFFICE OF PUBLICATION—Corner Austin and Vale Sts., Jefferson, Texas.

Marion county has fine oil lands and the capital to work them is all that is needed to place her in the oil producing field.

The Caddo City oil wells are the absorbing topic in this section. That city has gone on a big boom since the big oil well was brought in and real estate is way up.

One of the largest meteorites ever discovered will be exhibited at the Lewis and Clark exposition. The meteor was recently found in Nez Perce county, Idaho. It weighs 152 pounds.

The beautiful scenery of the Pacific Northwest will be on exhibit itself for the people of the East and West who visit the Lewis and Clark Exposition at Portland, Ore., this summer.

Dr. T. K. Hunt, who had charge of the Igorrotes at the Louisiana Purchase Exposition is now in the Philippines collecting an exhibit the wild tribes of the Islands to bring to the Lewis and Clark Exposition.

Among the freak bills in the legislature is that one which intends to cripple or destroy the sale of proprietary or "patent medicines" in the State. If the bill becomes a law all of the leading and best medicine companies will withdraw from the State rather than be forced to place formula on label, this being required in new bill.

Ground has been broken for the Washington State building for the Lewis and Clark Exposition and work on the structure begun. The building will typify the timber wealth of the Evergreen State. The Washington legislature recently appropriated \$75,000 for erecting the building and collecting an installing a comprehensive display of the resources of the State.

## A Lasting Effect.

This Evidence Should Prove Every Claim Made for Doan's Kidney Pills.

Relief from the pains and aches of a bad back is always welcome to every backache sufferer; but to cure a lame, weak or aching back is what's wanted. Cure it so it will stay cured. It can be done. Here's the strongest evidence to prove it:

Judge James Moreland, of 1018 West Woodward street, Denison, Texas, says: "Anyone who is annoyed with disorders of the kidney secretions, particularly frequent or irregular passage can depend upon it his kidneys are either weakened or over-excited. When this condition fails to respond to the use of ordinary medicines of a diuretic nature, or those which act directly on the kidneys, he can be certain that it is high time to at least check the cause or graver results will ensue. Some time ago my kidneys and the renal area required a medicine and I selected Doan's Kidney Pills, after reading considerable about the claims made for them. One box produced such marked results that I bought a second and third. The continued treatment brought such results that I unhesitatingly recommend the remedy to my friends and fellow citizens. When a medicine acts just as represented, it should be made known to every one so that they may know how and when to use it."

## REVIEW TO DATE

Of the Twenty-Ninth Legislature by Chas. W. Carlson.

That in the future we should send farmers and business men to our legislature in place of a majority of "Jim Crow" lawyers is no doubt evident to every one who has followed up the pool bills for regulating ever phase of endeavor which are now pending. Some of these measure may not be needed, but a large number of them are so drastic in character as to work unnecessary hardship upon the business enterprises and people of Texas. 1st, there is the sweeping anti free pass bill before the house which has already passed the Senate. It prohibits the granting of passes to any except railroad officials and employees and street car officials and employees. Under such a law, if this bill should become a law, the sick or wounded, or even the dead, could not be transported by the railroad, even its own victims, without prepayment of fare, and the companies could not encourage the holding of conventions for the promotion of immigration and development by granting free transportation to the promoters without violating or evading the law.

An officer in the discharge of his duty could not use the railway train as a means of quick transit in an emergency if he happened not to have at his command the means to pay his fare.

The application of the law to street railways would prevent firemen from using the street cars, even when going to fires, if they happen to be minus the fares, and policemen and other peace officers answering burry calls would be in the same fix.

Laws should be enacted for the people at large and not for the benefit of a few corporations. The anti-pass bill is a financial benefit to the railroads and street car companies only, and when you see by what large majority it passed our Senate you can see who owns it. Now if this passes the house and in the end it is not vetoed by the governor, we can see who owns the whole business.

A bill has passed the Senate requiring complete yearly reports in detail of all business transactions and operations of corporations. This answers the oft repeated cry for publicity of corporate methods, but some claim it will it will lay a heavy burden of expense in extra book-keeping which of course would only add to the cost of the product and the consumer or the people at large would be the only sufferers.

Bill has passed the House giving all towns chartered under the general law the right to regulate the rate of public utilities, water, light, gas and telephones. This law will be good where the mayor and board of aldermen know something about the cost of producing such commodities, but would work hardship where city governments are made up of men entirely ignorant of business of that kind which is the case in nine out of every ten towns.

Another bill absolutely forbidding the sale of future wages.

Another bill regulating sleeping car rates.

Another bill pending providing for taking children away from parents who do not properly care for them.

Still another bill is pending fixing a tax on bachelors over 25 at a steadily increasing ratio until at 35 a man must either marry or move out of the State. This will necessitate the passage of a bill imposing a fine upon comely maidens for saying No, and the fine to be doubled for each offense.

They are trying to do away with all our innocent amusements of our country fairs, such as cattle roping, broncho busting, and imitation bull fights.

Prohibition is touched up with an array of bills, but so far a single one has not been introduced which would do the project any good.

Though some of this legislation may be necessary and good, yet taken as a whole, it indicates an unfortunate prying, meddling, and inquisitorial spirit. "Laissez Faire" was once the corner stone of Democratic faith. Our fathers used to say, "that is the best government which governs least."

Jefferson, Tex., Feb. 11, 1905.

There are better lands in Marion county and cheaper, than some that are being bought near oil territories. Marion County has undeveloped oil field as yet but a few years may bring great results in these oil lands.

# HAPPY AND HEALTHY.

A Beautiful Canadian Girl Saved From Catarrh of the Lungs by Pe-ru-na.

MISS FLORENCE KENAH.

Miss Florence E. Kenah, 434 Maria street, Ottawa, Ont., writes:

"A few months ago I caught a severe cold, which settled on my lungs and remained there so persistently that I became alarmed. I took medicine without benefit, until my digestive organs became upset, and my head and back began to ache severely and frequently. I was advised to try Peruna, and although I had little faith I felt so sick that I was ready to try anything. It brought me blessed relief at once, and I felt that I had the right medicine at last. Within three weeks I was completely restored and have enjoyed perfect health since."

"I now have the greatest faith in Peruna."

F. E. KENAH.

WOMEN should beware of contracting catarrh. The cold wind and rain, slush and mud of winter are especially conducive to catarrhal derangements. Few women escape.

Upon the first symptoms of catching cold Peruna should be taken. It fortifies the system against colds and catarrh.

The following letter gives one young woman's experience with Peruna:

Miss Rose Gerbing is a popular society woman of Crown Point, Ind., and she writes the following:

"Recently I took a long drive in the country, and being too thinly clad I caught a bad cold which settled on my lungs, and which I could not seem to shake off. I had heard a great deal of Peruna for colds and catarrh and I bought a bottle to try. I am pleased that I did, for it brought speedy relief. It only took about two bottles, and I considered this money well spent."

"You have a firm friend in me, and I not only advise its use to my friends, but have purchased several bottles to give to those without the means to buy, and have noticed without exception that it has brought about a speedy cure wherever it has been used."—Miss Rose Gerbing.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.
